

# SUB 250G DRONE FLIGHT

**The person handing this to you is currently flying a drone and must keep their full attention on the aircraft.**

**The aircraft being flown weighs under 250g and flight is permitted with zero separation and over uninvolved people. You can fly these small drones in congested areas and over people.**

**Please do not interfere or distract them as this could be dangerous and a criminal offence to do so. Please read below for more information:**

**This flight is being conducted in accordance with the CAA UK Drone Code and the following are in place, if required:**

-  **Operator ID**
-  **Airspace Clearance**
-  **Any Required Insurance**
-  **All CAA rules being followed**

**You might be interested to know that the UK drone rules have changed at the start of 2021 and drone flight is now permitted in many more places than before. This depends on which drone, where it is being flown and the qualification of the operator.**
